Twin AR

APP for mobile devices that shows the product of the physical catalog in 3D with Augmented Reality.

INNOAREA
PROJECTS

How does it work?

1

Upload your 3D models to the self-managed platform and customize each of them according to your needs.

2

Publish your model and start sharing it through a QR code or on your own website.

3

Share the generated articles and allow your audience to enjoy your products in a delocalized way.

Devices

3D model display

compatible with the last two major versions

of all major PC and Android

PC and Android browsers,

plus the two latest versions of Safari

versions of Safari (on MacOS and iOS).
